TOTALS											
UPPER:		\$921.5									
LOWER:		\$434.5									
So as you can see, my income has experienced a major drop. This month, being June, my income is on the upper end. I do however think it will drop in the coming summer months then climb again starting in September if history is accurate. I will take a look later on what I think about making money online this way with the current state soon. Check the social media below to stay updated.
